# New challenges make us novices again.

THIS YEAR HAS BEEN A YEAR OF SURPRISES; NEW CHALLENGES, NEW ROADMAPS. A YEAR OF UNLEARNING AND LEARNING NEW THINGS. THE COVID-19 PANDEMIC HAS IGNITED A SPARK IN ALL OF US. WE HAVE BEEN COMPELLED TO REIMAGINE AND REDESIGN OUR STRATEGIES FOR IMPARTING EDUCATION. ADAPTING WELL TO CHANGES, ISN'T THAT THE BIGGEST LEARNING? / THAT WHAT EDUCATION IS ALL ABOUT.

Covid-19 struck us without a warning and left all of us in the educational institutions scrambling to respond to its exigencies.

It also created a need to creatively deal with such unforeseen and once-in-a-century catastrophic event.

**DYPIS, Pune came up with a swift response to the pandemic amid the lockdown restrictions.**

Our alacrity resulted in a spate of online classes for learners of every level ranging from scholastic subjects, co-scholastic areas such as fine and performing arts to mental wellness and physical fitness.

themselves beautifully equipped to

exists.”**

# Assembly

As in a physical school setting, we begin our day with Assembly and end it with a prayer.

**ASSEMBLY-** A great way to initiate the students to a new day. This 15-minutes period provides a great opportunity to the class teachers to bond with the students, listen to their queries and resolve any issues

Similarly, the students also thank the Almighty at the end of the day.

## **ONLINE CLASSES-**

We conduct five classes of 30 minutes duration interspersed by a 15-minutes break after each class.

During the breaks, certain activities have been suggested by the school to ensure that the students stay away from the screen and are engaged creatively. They learn independence, healthy habits and do their bit by participating in small household chores.

# Live Classes

**Live classes for the Pre-Primary Section and the Secondary Section**-provide a great way to connect with our students. The energy and enthusiasm during the live classes is palpable. The teachers explain the concepts, resolve queries and interact with the students during the live classes. We try our best to obliterate the boundary between a physical class and a virtual one!

The teachers use multiple online tools- Padlet, Kahoot, Power point presentation, videos, Bamboozle to make the class more engaging and interactive.

## Videos Lessons are uploaded for Grades I TO V

The teachers create a 20-minute video to deliver the content of a lesson. The link is shared with the students before the class. The teacher joins the class, interacts with the students and then guides them to the link.

This approach was adopted bearing in mind that the younger students often need their parents' assistance during the classes. So, the videos lessons have proved to be a great way to facilitate learning at their own pace. They also facilitate a balance between the screen time and breaks.

Later, the queries of the students are resolved in the next class.

# The Weekly Interactive classes

**The Weekly Interactive classes** for grades I to V are live sessions. The teachers interact with the students and resolve their queries, doubts and revise the concept taught in the previous week. The quizzes and games played enliven these sessions.

# STUDENT COUNCIL ELECTIONS:

**“Leadership and Learning are indispensable to each other.”**

This quote by John F. Kennedy underlines the need and importance of providing opportunities to develop vision, empathy, integrity, autonomy and ownership of responsibility in students.

With this vision in mind, the students once again experienced elections in the real sense.

The School Council members were chosen democratically by the students from Grade V onwards.

Covid-19 pandemic was not been a deterrent for our enthusiastic students.

The candidates designed their electoral symbols, created innovative campaigns and pursued their voters online.

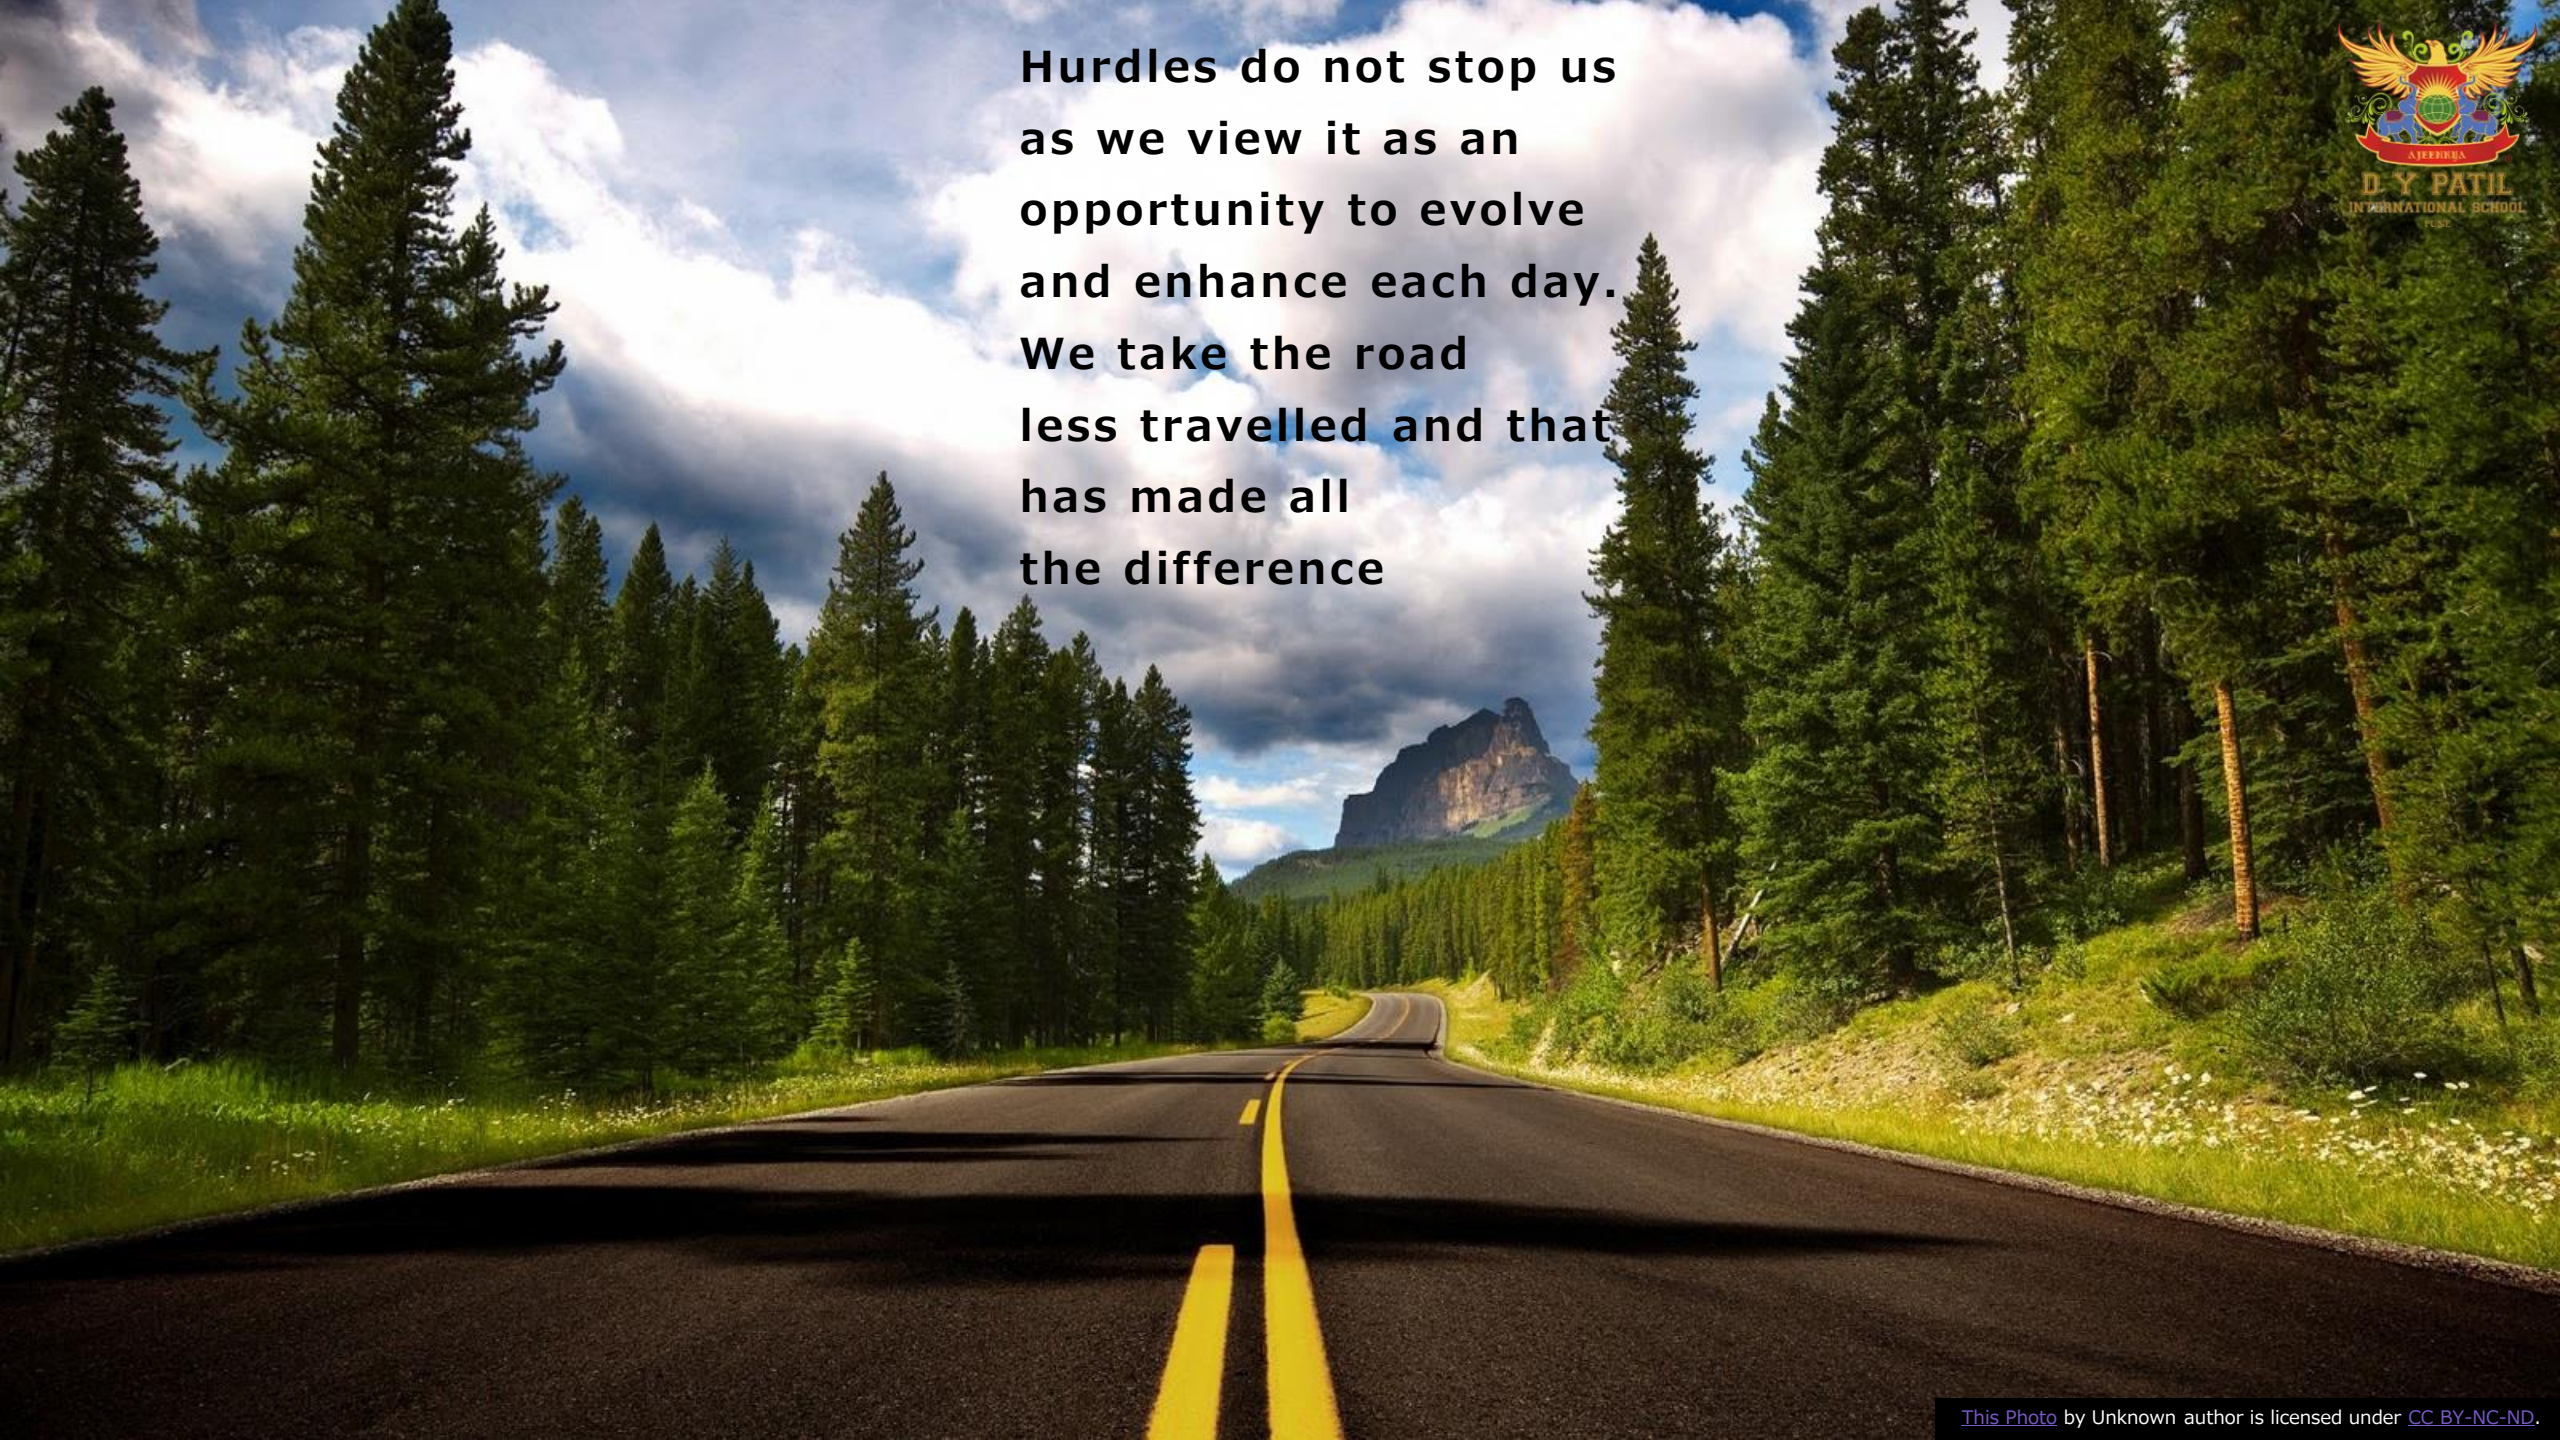

The voters also ensured that they are heard by all as they cast their **votes online**.

## **Investiture:**

**The zeal for excellence and the Never-say-die attitude of D Y Patil International School, Pune reflected well in the Investiture Ceremony conducted on August.**

**The Virtual Investiture Ceremony for the Academic Year 2020-2021 is Adaptability at its best.**

The learning was not limited to just gathering information but was based on experiments, activities and observations.

The detailed guidelines regarding the projects were shared through the ERP.

The projects were submitted in hardcopies as well as online.

# Parent Orientation

An effective partnership between the parents, teachers and the school management work is instrumental in addressing the learning gaps. It is extremely important for achieving the holistic development of the students. Online PTMs were conducted online through MICROSOFT TEAMS.

IT HAS BEEN VERY EFFECTIVE IN TERMS OF TRANSPARENCY, MONITORING THE STUDENTS, GREATER CONTROL OVER RESTRICTIONS, DIGITAL CORRECTIONS.

PARENTS AND STUDENTS WERE ABLE TO SEE THE ANNOTATED COPY OF THE ANSWER SCRIPTS.

IT IS EXTREMELY IMPORTANT AS IT HELPS THE STUDENTS UNDERSTAND AND FOCUS ON THE AREAS OF IMPROVEMENT.

## ERP

The system was introduced in the school in 2018. It has been instrumental in helping us to coordinate and collaborate with the students and parent community. It is one platform that has ensured seamless transmission of circulars, homework, communication, attendance and Report card generation.
